**Re: BASF Sodium Metabisulfite - Ready to Eat Status/GRAS**

BASF Sodium Metabisulfite is not considered Ready to Eat.

Sodium Metabisulfite is Generally Recognized as Safe (GRAS) when used in accordance with Good Manufacturing Practice 21 CFR 182.3766. 21 CFR Limitations: Banned for use on fresh fruits and vegetables that are meant to be consumed raw and cannot be used in foods considered to be good source of Vitamin B, including fresh meat and poultry.

Feel free to contact me with any questions or concerns.
