**Kudos Blends Limited  
KODA™ 100 Potassium Bicarbonate (MB)**

**Specification**

| <b>Test</b>   | <b>Minimum</b> | <b>Maximum</b> |
|---|----------------|----------------|
| Assay Analysis of Originating Potassium Bicarbonate (AOAC monograph method) | 99             | 101            |
| % Sieve Fraction > 355 micron (45 mesh)                                     | 0              | 0              |
| % Sieve Fraction > 75 micron (200 mesh)                                     | 50             | 85             |
| % Total Carbon Dioxide  | 42             | 43.5           |

**Purity Criteria**

The components conform to the relevant legal purity Commission Regulation (EU) 231/2012 which lays down specifications for food additives listed in annexes II and III to Regulation (EC) No 1333/2008 (repeating Directive 2008/84/EC), and those of the Food Chemical Codex.

**General Properties (not specifications)**

- Appearance: Solid, free-flowing powder
- Color: white
- pH: 8.0 – 9.0
- Relative Density: 0.77 – 0.99
- Solubility (Water): 28.1 g/l
